Agenda

Discussion on how the Trust can provide financial relief to members during COVID 19

~~~~~

Financial support options

The Trustees discussed options on how the Trust can support the community during COVID 19. Ideas that surfaced were an application process that would provide a set amount to a household such as \$500 – without a vetting process. Another idea that came out was to allocate a lump sum to Council to help support as well. We discussed the number of members both on and off community (approx. 2700). The discussion was around how we support both on and off reserve members.
